

GUÍA DE MATEMÁTICA

Matemática – Kínder
Prof. Loreto Kaempfer

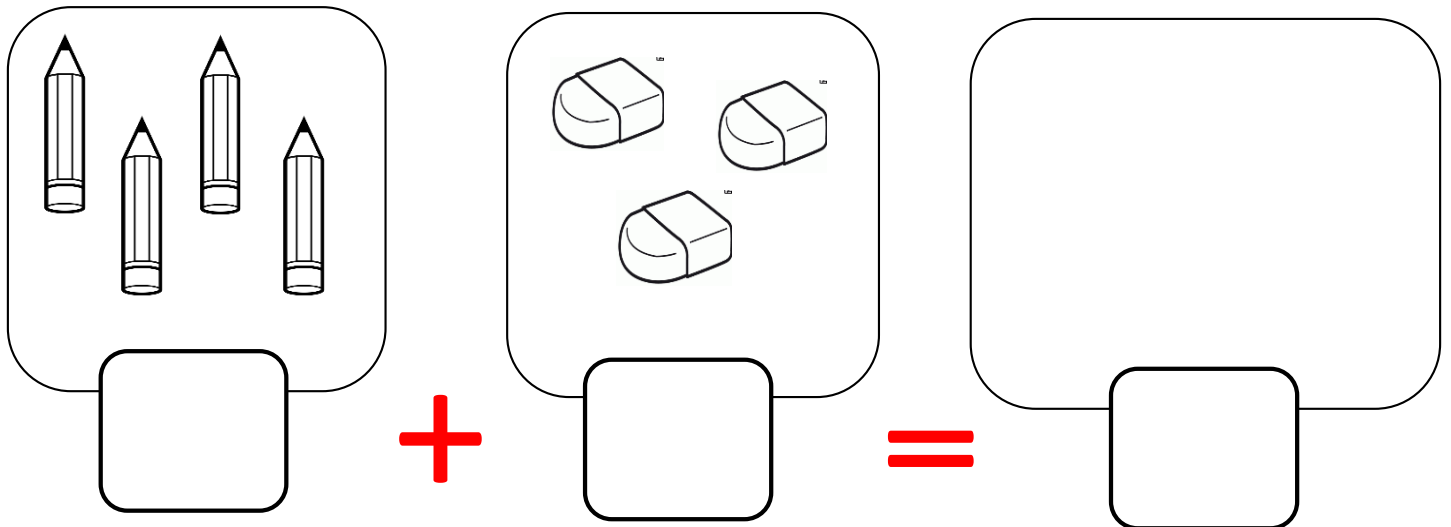

Nombre: _____

Objetivo: Resolver problemas simples de manera concreta y pictórica agregando hasta 10 elementos

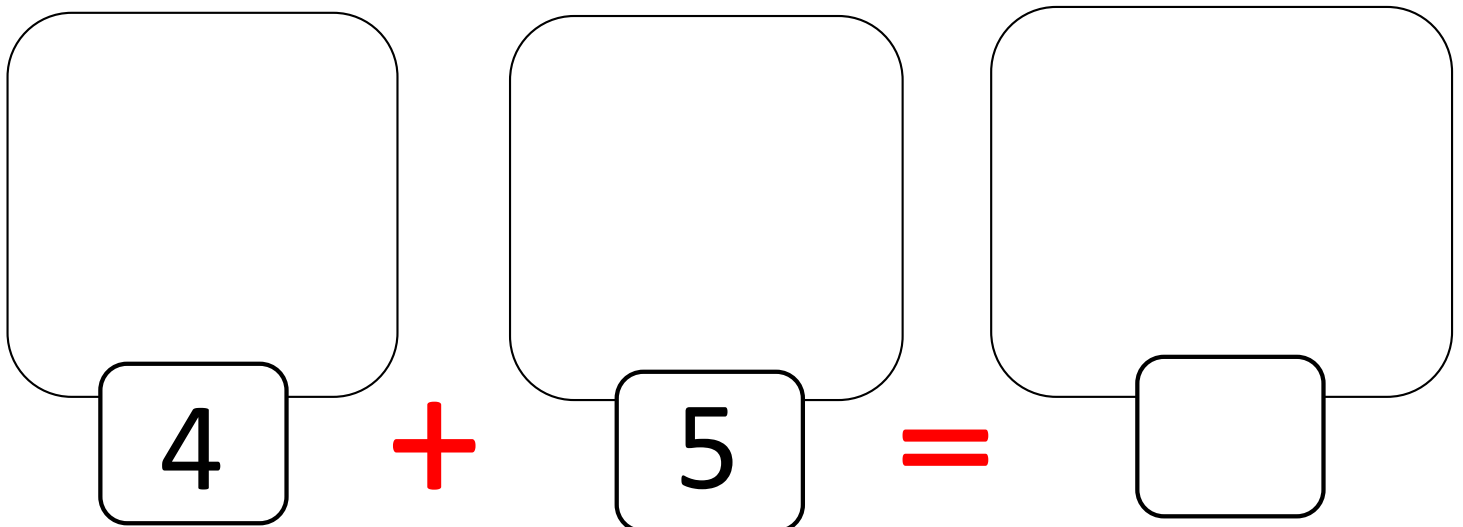

Instrucciones: Cuenta los elementos, escribe su cantidad y realiza la adición anotando el resultado y dibujándolo.

Two boxes of cereal and two bottles of water are shown in separate rounded rectangles. Below each group is a square box for the count. A red plus sign is between the boxes, and a red equals sign is between the second box and a larger empty rounded rectangle for the total.

Four pencils and three erasers are shown in separate rounded rectangles. Below each group is a square box for the count. A red plus sign is between the boxes, and a red equals sign is between the second box and a larger empty rounded rectangle for the total.

The number 4 is in a square box, followed by a red plus sign, the number 5 in another square box, a red equals sign, and a larger empty rounded rectangle for the total.
